

----- UPDATED AS OF: 09:46PM, MONDAY – JANUARY 11th -----

I have been told that the statewide commitment to make the trip tomorrow has been strong! It looks like there will be no weather situations and we are all systems go. I will see you all in the morning... We will have coffee for the early birds. You may want to choose the light jacket over the tundra coat as we will be inside almost the entire time. We still have ample seating available so if you have any last minute people bring them along... Call my cell if you have any issues... 914.466.5940...

OTHER HELPFUL NOTES (Continued on next page)

OTHER HELPFUL NOTES (Continued from last page)

Other Tips:

- 01). No Guns/Knives - they will not clear the security checkpoints and you will have turn them over or stay outside. As A Matter Of Fact Try To Avoid Having Any Metal On You At All...
- 02). No Implements of Bodily Harm – I think you get the picture here... It's like going through the airport security!
- 03). You may bring small backpacks, attaches, laptop bags, etc... but they will be checked, and you may not be permitted to bring them into the Assembly or Senate Chambers... Purses are usually accepted in Chambers...
- 04). Consider Our Collective Image At All Times – There may be anti's who will badger and try to incite us... It only takes one short fuse to snap and make us all look bad so let's all be on our best behavior.
- 05). Ask your club to prepare concerns you would like to have presented to your legislators. Prepare a written statement which may or may not be signed at your club meeting and delivered in person to your senators and assemblymen. Also forward a copy to us, so we can incorporate it in the Ulster County presentation as well.
- 06). Anyone is invited... Ask a friend... If you really can't go, find someone to go for you... If you want to pack your car w/people to try & save money, GREAT... just go! We need bodies... Still meet & depart from mall if you can.
- 07). Meals – There are sandwich shops, vendors and a cafeteria nearby by. No beer or alcohol is permitted.
- 08). Once the busses drop us, they will not return until departure time, so plan to travel light...
- 09). You do not have to speak, but will have the opportunity to do so if you want to...
- 10). You will not have to huddle on a windy freezing corner. This is all inside...
- 11). Best signage is something you can wear. Banners and signage may be denied.

ULSTER COUNTY LEGISLATORS

Remember...If you don't go or stand up for your RIGHTS in some other way, then you don't have the RIGHT to complain either!

Hello all,

I am sure you have all heard about the debacle in the last session of the Senate... Well if it had not been for that timely event, we may have had several anti-2nd Amendment bills passed into law. There were several MAJOR "anti sportsman / anti 2nd Amendment" bills that were probably within hours of being approved by both the Assembly and the Senate...

And guess what... if we don't let these legislators know we are watching and we are willing to fight for our rights, we will see a lot more anti-2nd Amendment bills appearing and **THEY WILL START GETTING PASSED INTO LAW!** Not to mention the massive hike in sporting licenses and fees, the closure of pheasant farms, reductions in trout stocking, more restrictions on trappers and other bad news dumped on us just this year!

More and more restrictions makes our hobbies more and more difficult to the point where some people just quit their sport... And if the erosion continues these sports will be lost for future generations.

It is time to stop complaining to each other and do something about it...

With that in mind, I have been asked by the Federated Sportsmen's Clubs of Ulster County to coordinate an effort to participate in the Sportsmen (And Women's, And Children's!) Outreach Day in Albany on Jan 12th, 2010...

The plan is to pack the capitol with tens of thousands of sportsmen, women and children in a show of strength to let legislators know that, we are in fact still breathing, that we do love our outdoors sports, the second amendment should not be diluted any further, we are tired of paying fees into closed book accounts and EARNING permits for privileges that were protected by the constitution... And **MOST IMPORTANTLY** we need to let them know that that we are willing to stand up and fight as a group for the freedoms we want and need in order to enjoy the outdoors and protect ourselves and our families.

If we don't stand up and fight to keep these rights, who will?

WAIT...

Read that again and take a second to really think about it...

IF WE DON'T STAND UP AND FIGHT TO KEEP THESE RIGHTS, WHO WILL?

Legislative Politicians???? Not Unless We Show Them That We Matter...

With very few exceptions, Politicians are motivated to serve one or more of these three main purposes...

- 1). Getting Re-elected - (Which requires attracting voter support... (Voters = US!!!!))
- 2). Legislating - (Actually passing or blocking legislation to EARN voter & constituent support... (US!!!!))
- 3). Raising money - (Money to pay for campaign ads to attract voter support that they **HAVE NOT** earned through their legislative action. (Voters = US!!!!))

We have a distinct role in all three of these actions and we are not helpless when we work together...

So here it is in a nutshell...

We need to quit complaining to each other and let the Legislative Politicians know we are alive and we care enough about the 2nd Amendment and protecting our sporting heritage (and future) to stand together and fight.

A respectable showing to make an impact requires thousands of people to do whatever it takes to show up in Albany and stand together representing the hundreds of thousands of sportsmen, women and children in New York!

Since we will all be leaving from the same point right here in Ulster County we'll make sure our own local legislators know that we will not accept any more erosion of our 2nd Amendment rights as well.

What we need at this point is for a five alarm effort to spread the word and get sign up sheets out there...

Please ask your club to get a notice out to it's entire membership with details on the event and invite club members (and non-club members alike) to sign up to attend.

Fully 99% of the success of this event and the amount of respect we will receive from legislator's hinges solely on attendance and therefore the success rests squarely on the shoulders of each and every one of us to get people to for this event. And I sincerely hope to see you all in Jan 12th,

Elmer LeSuer
